

Pull Requests Welcome

Jason Meridth
Staff Software Engineer at

PROCORE

Maintainer/Lead on argo-helm repository

Hello everyone (on Youtube). My name is Jason Meridth. I'm a Staff Software Engineer at Procore. I'm also a Maintainer/Lead on the argo-helm repository.

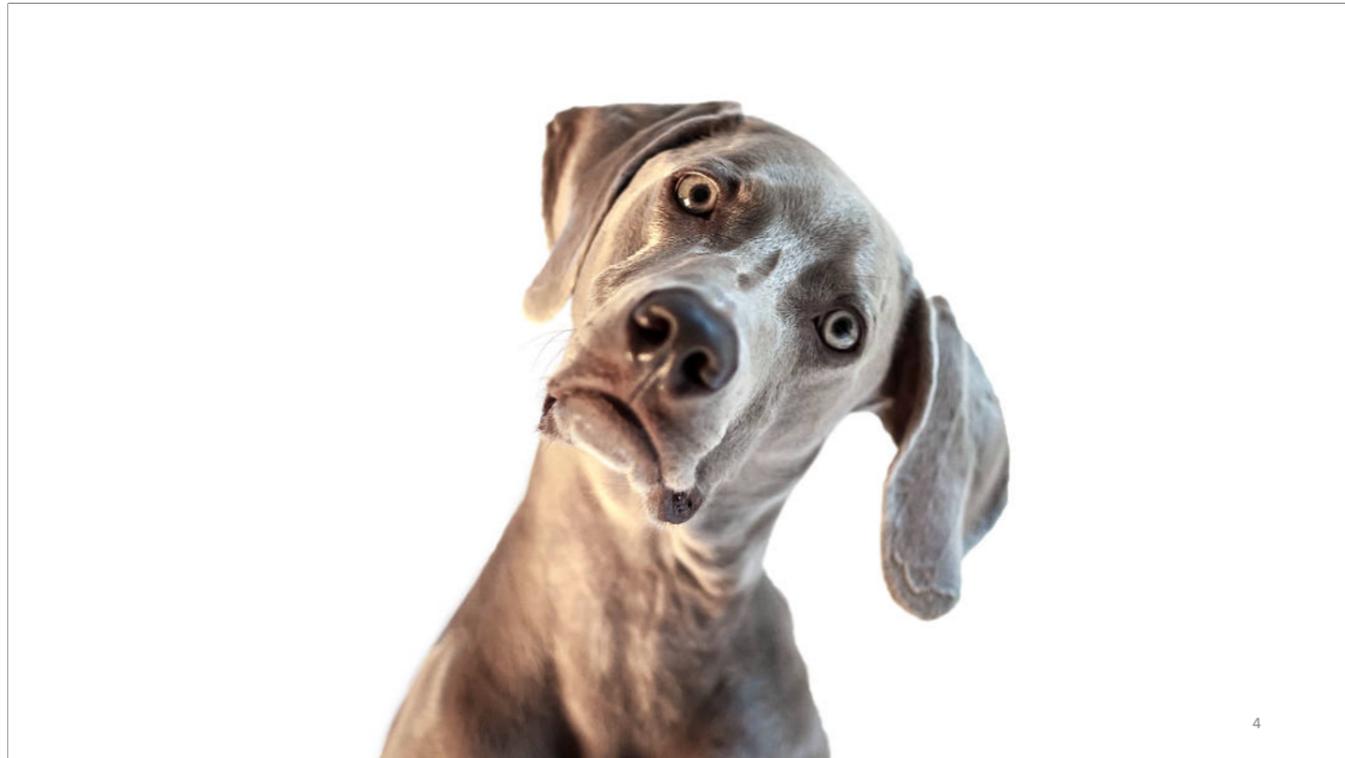

permission to use "Pull Requests Welcome" image given by creator [Joel Glover](#)

The image shows a grid of four GitHub repository cards. Each card features a unique illustration, the repository name, and buttons for 'Fork' and 'Star' with their respective counts. The 'argo-project' card is distinct as it uses 'Starred' instead of 'Star'.

Repository	Forks	Stars
argo-cd	4.3k	14.4k
argo-workflows	2.9k	13.6k
argo-rollouts	694	2.3k
argo-events	688	2.1k
argo-project	123	494

These are the 4 major projects and base project repositories and how many forks and stars they have.

Where to start?

Documentation

In my experience, the easiest way to start is to following existing docs to setup your local environment. Any issues you encounter can be added to the docs.

Best docs to start with are how to run the application locally aka "How to setup your local environment" to test your pull requests.

Levels if you keep contributing

<https://github.com/argoproj/argoproj/blob/master/community/membership.md>

Member

- Two factor Authentication (2FA) on GitHub account
- Multiple contributions to one or more subprojects
- 2 Approver or Lead sponsors
- Issue (member type) to github.com/argoproj/argoproj

<https://github.com/argoproj/argoproj/blob/master/community/membership.md>

Reviewer

- Been a member for at least 3 months
- Knowledgeable about codebase
- Reviewer of or contributor of at least 5 substantial PRs
- Sponsored by subproject lead

<https://github.com/argoproj/argoproj/blob/master/community/membership.md>

Approver

- Been a reviewer for at least 3 months
- Reviewer of or contributor of at least 10 substantial PRs
- Sponsored by subproject lead
- Mentor contributors or reviewers

<https://github.com/argoproj/argoproj/blob/master/community/membership.md>

Lead

- Existing approver
- Deep understanding of the technical goals and direction of the subproject
- Deep understanding of the technical domain of the subproject
- Sustained contributions (issues, PRs, discussions, design)
- Collaborate with other subproject leads
- Promote and foster community (meetings, communication, workshops, etc)

Community Calendar

Maintainers Meeting:

- 1st Tuesday monthly 815am PST

Membership Meeting (Leads and others only):

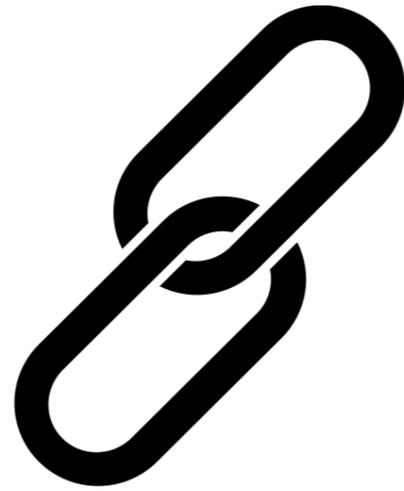

- First Thursday every 3 months 10am PST

argo-cd/rollouts:

- contributors: Weekly Thursdays 815am PST
- community: 1st Wednesday monthly

Argo-workflows:

- contributors: 1st/3rd Tuesdays Monthly 10am PST
- bug triage: Weekly Thursdays 10am PST

This is Pooka. Pooka thanks you for your time.

I'd like to thank my team at Procore and for their support.

Here is my Venmo if you'd like to send me any money

Just kidding.

Feedback QR code. Please be kind.
